Solid Rock Builders Ministry

Our district office, the Forest Lakes District, has a ministry named Solid Rock Builders.

Solid Rock Builders is a ministry of volunteers who build churches.

There are many small congregations in our district that do not yet have a church to worship in.

Solid Rock Builders volunteers help these small congregations build churches that otherwise could not be built.

The following video explains what Solid Rock Builders Ministry is all about and how you can get involved.

For More Information

You can find more information in today's bulletin about the Solid Rock Builders Ministry, and the project in Oshkosh. Hundreds of weekend volunteers are needed to build the Oakbrook church. They need your help even if you have only one Saturday to volunteer.

If you are interested in participating in the Solid Rock Builders Ministry, raise your hand, the ushers will be passing out response cards.

Fill out the response cards and give them to <church contact, team leader, or send them to the Solid Rock Builders address listed on the card>

<Optional> We will be forming a mission trip to Oshkosh in the next few weeks to help build the Oakbrook Church.
